Mr. Randi,

Hilly Rose had me on as a guest again and mentioned your nonsensical \$1,000,000.00 claim regarding proof of the paranormal. Apparently you are unaware that I challenged CFI West, the professional skeptics' cult with which you are associated, to duplicate ONE of Billy Meier's UFO photos and ONE of his film segments.

This challenge was made in response to Mr. Vaughn Rees asserting that Meier's UFO photos and films were "easily duplicated hoaxes". The challenge was accepted by Mr. Rees in February of 2001. To date, no such evidence has been presented by CFI West to substantiate their claim. This despite my generously offering that they use ANY technological means at their disposal to duplicate the photo and film taken with ordinary means by Mr. Meier between 1975 - 1980.

Likewise, Mr. Michael Shermer of Skeptic Magazine has retreated into the shadows when I challenged him regarding the Meier case. I have been widely publicizing the failure of these parties, yourself included, to debunk the Meier case...and shall gleefully continue to do so.

Further, while you're still stumped by the hard evidence in the case, you will find it all the more impossible to explain the higher standard of proof, i.e. the prophetically accurate scientific and world event-related information that Meier published from a few weeks to more than 25 years before "official" discovery or occurrence. Oh yes, this includes the warning that he wrote and published in 1995 about the recent attack on Iraq.

It is truly pathetic how lacking in credibility you and your organization are so... I think that you and I have a date with destiny, one that will surely relieve you of your \$1,000,000.00, though that is a minor consideration for me.

Belly up to the bar, boys,
