Subject: Re: Your surrender is acknowledged

Michael, you are an energetic, but highly confused hare.

Let us again state clearly for the record what has been stated previously on the record on multiple occasions.

No one from CFI-West, IIG, or JREF has ever retracted anything they have ever stated regarding the Billy Meier Case.

Vaughn Rees' employment with CFI-West was not terminated due to anything regarding the Billy Meier Case.

No one has "given up". You just don't seem to understand that people are ignoring you. You are simply not worth paying attention to.

Silence does not equal surrender.

Sincerely,

Derek Bartholomaus

Dear Phil,

It's a bit of a shame that you've chickened out of the debate on the Billy Meier UFO case...but maybe it's quite understandable.

After all, we now have retractions from Randi and Bartholomaus, CFI-West canned Vaughn Rees because of his bungling, Michael Shermer tried to offer the theory that some kind of elves were responsible for Meier's evidence, etc. And Bartholomaus is completely non-responsive to my very polite offer for him to substantiate his model theory in one of Meier's films. (I'm sure he'd be glad to give you the details...and excuses.)

So I'll acknowledge you as also surrendering and joining the "I give up" camp, however, please stay tuned as such a complete trouncing of the professional skeptics is always worthy of more publicity, which I know you enjoy anyway.

All the best,

Michael Horn

The Silent Revolution of Truth

"A great day...to pull aside the veils that have been covering up malevolent forces behind the scenes that manipulate confusing present events...there is a brand new video out there called The Silent Revolution of Truth...you can bet that it has some conspiratorial contents...My 15 year-old son finds this stuff very entertaining, you should know. And I don't mean that in an insulting way!...Congratulations!...Michael, I greatly appreciate your contribution to all of this!"

Michael Medved - Nationally Syndicated Radio Host and Movie Critic

"...I also remember seeing a shot on the Super8 reel that showed a UFO circling around a fairly tall tree... it seemed impossible to stage that kind of a shot with a miniature (it would have to be hanging on a very tall crane, with wires - but even then the movements would be hard to achieve.)...we could definitely do it today with CG, but at the time these were supposedly shot - it would have been very hard, probably even impossible, to fake this kind of shot."

Here is just a sample of what the media is saying about Michael Horn:

Even nationally syndicated conservative talk radio host Michael Medved had to admit "... Look, I'm intrigued by this because, again, some seemingly very bright people seem to believe this. Michael, I appreciate your spirit of openness and sharing all of this with us and your willingness to bring us all up to date on the Billy Meier controversy involving flying saucers and extraterrestrials."

- Michael Medved - National talk radio host

"Thanks very much! Our audience loves this topic."

- Alan Colmes Show - Fox News

"... And that is without a doubt the best show that I think I've ever done on the Meier case. Actually, I didn't do it, I just hosted it. Michael Horn did it so he goes down as the best spokesman for Meier that I've ever had on."

- Art Bell - Coast to Coast AM (after interviewing Michael for four hours)
500+ Radio Stations 5 million + Listeners - the largest late night talk show in North America

"You're a fantastic guest!"

- Ian Punnett - Coast to Coast AM (after interviewing Michael for three hours)

And, typical of the effect that Michael is making nationwide, mainstream talk radio host Karen Grant summed it up perfectly "Michael is a phenomenal guest. Whether you are a skeptic or not, he brings information that is fascinating and keeps the audience glued to their radios. The responses I receive after he has been on my show have been overwhelming. The one guest you want to have when it comes to the Meier case and contacts in general."

- Karen Grant - National talk radio host

"Michael Horn, always a fascinating guest when he appears on Coast to Coast."

- George Noory - Talk radio host

"Thanks again for doing my show a few weeks ago. I rarely get email from listeners but I did get a few that really enjoyed hearing you and wanted your website info."

- Arielle Ford - Talk radio host, leading publicist

Regarding Michael's presentation of the scientific proof for the Billy Meier UFO contacts, and the prophetic material (documented and published by Billy Meier in 1975, 1987 and 1995) that specifically gave advance warning of the destruction of the WTC, the upcoming attacks by the USA and the president, and other events unfolding right now...legendary, conservative talk show host Barry Farber said:

"... I didn't dream I could ever enjoy a discussion of this nature, but Michael, you amaze me. It's supremely enjoyable...If you can prove one of them...then you're gonna change the world. I'm sitting here as a fascinated listener and talk host having a good hour. But if you can prove that anything [like that] came down...then I'm telling you pal, you're wasting time on the Barry Farber Show. You can change the world... It was a delight! You handle skepticism well and kept things going briskly. I've already put your material in the "volcano" file" meaning hot guests who are welcome repeatedly on the show."

- Barry Farber - Talk radio host

"You were great! You are very articulate and knowledgeable. I thoroughly enjoyed our chat and I hope you did, too. Would you like to come back on in the future?"

I appreciate you coming on and you were such a gentleman and very charitable about the questions. Thank you so much."

- Gianni De Vincent Hayes - Christian talk radio host
